

# THE RED DEVIL BLINKING VEST

## POLICE - FIRE - CONSTRUCTION - SPORTS - PARKING

**16 SUPER BRIGHT L.E.D.'S  
SERIOUS VISIBILITY**

If you're a bicyclist, road worker, traffic officer or have any other reason to be out in traffic, this is the vest for you. It has 8 very bright red LED's in the front and another 8 in the back. The LED's are contained in a hard, clear plastic bubble, which is itself under a soft, clear plastic sleeve. Behind the clear plastic is a silver reflective material. All this is held together with a plastic mesh which makes up the vest itself. There's 2 Velcro attachment points at the bottom to hold it tight and give some adjustment. The 2 AA batteries are in a plastic battery holder which lives inside a nylon pouch with flap cover. This pouch is tightly woven nylon with a plastic lining and it's located on the inside of the vest providing it with some rain protection. The LED's flash in pattern, a couple of slow flashes followed by a few quick ones, so quick as to almost give a strobe effect. The flashing red LED's in conjunction with the silver reflective stripes makes it one seriously visible vest.

**8 LEDS ON FRONT**

**8 LEDS ON BACK**

### VEST FEATURES

- 16 Flashing LED for High Visibility
- Low Power Consumption
- Easy to Wear
- Extremely Light Weight
